ICE GORGES ALL BROKE

There Was Plenty of Excitement in Cincinnati.

ONE STEAMER WAS SUNK

In Addition One Hundred and Fifty Barges Broke Loose and Were Sent Down the River.

DIFFERENT CONDITIONS AT PITTSBURG

Cincinnati, February 13.—Half a million dollars worth of river property was placed in jeopardy, one steamer sunk, another carried down the river in the ice, one hundred and fifty barges torn loose and sent down the river, and several other steamers seriously damaged Sunday from the break-up of the ice gorges at this point in the Ohio. The gorge at North Bend broke first, causing some damage when the ice in the local harbor passed out. Soon afterwards the gorge at the Covington water works broke, sending tons of ice rushing towards the city. The crews of all boats in the harbor and extra men who had been employed for the emergency were on duty all night, and a full head of steam was kept up on all steamers. The first accident was to the tow-boat Relief, which was sunk at the foot of Lawrence street. Captain Williams and two men on the steamer narrowly escaped drowning. The steamer New South, one of the best boats on the river, was torn from her moorings and carried down the river in the ice. She is somewhere below the city, lodged in the ice pack, and it is feared she will be a total loss.

The rise of ten feet in the river, which occurred during the day, probably caused by the re-gorging of the ice at some point farther down, forced the steamer Bonanza out of the water onto the shore near the foot of Main street, where she is in a bad position and in serious danger in case of any sudden movement of the ice.

At least 150 barges, thirty of them loaded with coal, were caught in the ice and have gone down the river, probably all of them being a total loss.

Pittsburg, February 13.—The passing out of the ice from the Monongahela river Saturday has vastly improved the outlook for the coal interests and as a result the freed boats have been busy all day clearing the pools of loaded barges in readiness for shipment south. The Allegheny is still gorged above Springdale. The rain that has prevailed here practically all day is expected to bring about a slight rise, but as the government forecaster predicts zero weather today, a barge stage will not likely be reached.

The Ohio Sunday at Davis Island dam registered 7.2 feet and falling.

Patrick Garrity Injured.

On Saturday afternoon Patrick Garrity sustained quite a serious injury which will cripple him for some time to come. He was at his usual occupation at Crider's planing mill when suddenly his right arm caught in the flooring machine. Before he could extricate himself the flesh and muscle was torn from the wrist to his shoulder. It is said that had it not been for one of his fellow workmen he would have been drawn into the machine and cut in two. He is reported as getting along very nicely and his arm will not have to be amputated as at first feared.

A Union Convention of Baptists.

The various wings of the Baptist denomination throughout North America will meet at St. Louis, Mo., May 16.

The aim of the convention will be to promote fellowship, spirituality and denominational loyalty.

The Rev. Dr. S. H. Greene, of Washington, D. C., was chosen chairman at the meeting which organized this body and Rev. Charles Moss, of Massachusetts, was elected secretary.

Mrs. Frances E. Willard.

The first figure of a woman to be placed in statuary Hall, Washington, will be that of Frances E. Willard the Temperance Advocate. It will be put in position on February 17. She was a statesman in mind and distinguished for her eloquence. Evanston, Illinois, is famous because there was her home.

THE E. J. PRUNER WILL.

Provisions for the Maintenance of a Home for Friendless Children.

When the late Col. E. J. Pruner died he left a will, dated Nov. 9, 1996, in which he made provisions for and the maintenance of a home for friendless children in the following clause:

For the purpose of benefitting humanity and caring for those in need I give and bequeath in trust to the Corporation of Tyrone and the Corporation of Bellefonte, Pa., the old homestead which I own at Bellefonte, Pa., for a home for friendless children from the towns of Tyrone and Bellefonte, the home to be called the E. J. Pruner home for Friendless Children. and for the purpose of endowing said Home I bequeath in trust forever to the Corporation of the Borough of Tyrone, Pa., and the Corporation of the Borough of Bellefonte, Pa., the brick building on Penna. avenue near Juniata river known as the Pruner block, and also the block corner Penn. Ave. and 11th St. known as the Hoover Block. and also my land in the State of North Dakota and my land in the State of Kansas and my land in Taylor, Worth and Rush townships, Centre Co., Pa., for the purpose of an endowment to said school. The children sent to said school are not to be under five years of age and when they arrive at 12 years of age places are to be obtained for them by the board of managers of the home. When there is an excess of revenue for the support of friendless children of the towns of Tyrone and Bellefonte then friendless children can be admitted from Altoona, Pa. It is to be distinctly to be understood that this home is not to be a home for pauper children. but for children who have no parents.

We do not know how much land is embraced in the clause "My land in the state of North Dakota and my land in the state of Kansas. and my land in Taylor, Worth and Rush townships, Centre county," nor what revenue might be derived from them, but the Pruner block referred to is worth $25,000 and rents for $2,172.00 per annum, while the Hoover block is valued at $15,000 and rents for $1,662.00 per year or a total of $3,840.00 per annum, besides the income from the other properties which would probably raise it to $5,000 per year.

A Step Towards the Millennium.

The first instance of the union of churches of several different denominations has recently been effected in India. Seven Presbyterian bodies representing denominations in the United States, Canada, Scotland and Ireland have now become one national Indian church.

The seven bodies thus amalgamated are represented in all parts of India, and comprise both missionaries and native converts. May the good work of christian union soon reach every shore.

Elks Home at St. Marys.

The construction of a large three story building by the B. P. O. E., St. Marys lodge No. 437, is assured. Work will begin in the summer. The building will be on the lot purchased by the Elks at the corner of Brussels and Michael streets. Committees are now at work selecting plans and devising means for securing funds. It is probable that bonds bearing interest will be issued to meet construction expenses The building will cost $30,000. The first floor will be devoted to store rooms, with a basement available for restaurant purposes. The second floor will be used as social rooms by the Elks. The third floor will be the lodge room.

THE FUNERAL OF COL. D. S. DUNHAM.

The remains of the late Colonel D. S. Dunham Thursday arrived at Howard, Centre county, and the funeral took place Saturday morning at 10 o'clock from the residence of his son, F. S. Dunham. The services were conducted by Rev. D. A. Artman, assisted by Rev. Allen. The Grand Army Post having charge of the services at the grave.

Our readers will remember that Col. Dunham died at the home of his daughter, Mrs. Dutton, at Pasadena, Cal., on Dec. 24th, 1904. The body was embalmed and shipped east later on.

—Mrs. Frank Davis, of East Logan street, had a narrow escape from choking to death one day last week. While at supper a particle of food became lodged in her windpipe, causing strangulation and the family at once tried heroic remedies but without avail. Dr. John Sebring was summoned and she was soon out of danger.

DEATH OF J. W. GEPHART!

Prominent Resident of the Town and County.

HAS PASSED AWAY

Superintendent of the Central Railroad of Pennsylvania and President of the Bellefonte Furnace Company—Former Law Partner of Gen. Beaver.

DIED VERY SUDDENLY OF APOPLEXY

J. Wesley Gephart, general superintendent of the Central Railroad of Pennsylvania and for a decade one of the foremost lawyers at the Centre county bar died very suddenly Tuesday morning of apoplexy at his home on East Linn, street. Mr. Gephart's health has been frail for years and yet the wonderful energy and perseverance of the man has kept him in active business life up to the day of his death. Monday he was at his business offices and seemed as well as usual.

Tuesday about 6 o'clock he got up and went to the bath room returning Mrs. Gephart met him in the hall and noticed that he was breathing strangely. She went and called her son Wallace and when they returned to the room Mr. Gephart had passed away. The sad death of Mr. Gephart was a terrible shock to his family and they are prostrated by the event. It also cast a gloom over the entire community and it is hard to realize that the man who has done so much for this town and its business interests lies cold in death.

J. Wesley Gephart was born at Millheim, Centre county, May 25, 1853 and was the son of John P. and Mary M. Gephart, the former now an honored citizen of this town. The foundation for his education was laid in his native town and in the schools of Bellefonte. He was the first student prepared for college by Rev. James P. Hughes after the latter took charge of the Academy and he graduated from Princeton College with honors in 1874. Previous to going to college he learned the printers trade at the Watchman office and to a great extent secured his college education by working at his trade at Princeton, N. J.

He read law under the direction of Gen. James A. Beaver, afterwards Governor and now Judge of the Superior Court, and was admitted to the bar December 13, 1876. He later became a law partner of Gen. Beaver, which partnership continued until November 1883 when he retired in order to give his time to the Valentine Iron Company with which he was connected from Jan. 1, 1891, to November 1, 1895. He was the one man through whose energy the Central Railroad of Pennsylvania was pushed to completion and he became the General Superintendent.

Through the inspiration that his youth, energy and ability gave to the iron industry in this place the two large iron furnaces have been kept in operation for years and are now in a prosperous condition, He is president of the Bellefonte Furnace and a stockholder in the Nittany furnace. He was a close student, an indefatigable worker and whatever he has taken hold of moved. He was a successful man. He stood deservedly high at the Bar, both as a counseler and as an advocate. He was an eloquent and forceful speaker. He was always on the side of right on all questions, and in all movements tending to the elevation of mankind. He was greatly interested in the cause of temperance and of the Y. M. C. A. He was an active member and worker in the Presbyterian church and for years was superintendent of the Sunday School succeeding General Beaver.

In 1888 Mr. Gephart supported Harrison for President he having previously been a democrat.

In October 1879, Mr. Gephart was married to Miss Ella Hayes, a daughter of W. W. Hayes deceased, formerly of this place.

Mrs. Gephart survives her husband with three children, Wallace, Wilson and Elizabeth, all of this place.

He is also survived by his father, Hon. J. P. Gephart, of this place, and by two sisters, Mrs. L. T. Munson, of Bellefonte; and Mrs. William Dix, of Dayton, Ohio.

Mr. Gephart took a great interest in the cause of education and was one of the trustees of the Bellefonte Academy. The funeral will take place Friday afternoon at 2 o'clock from the Presbyterian church. Interment in the Union cemetery.

A COMPLETE SUCCESS.

Philipsburg Has its First Farmer's Institute.

Philipsburg Ledger: The State Department of Agriculture furnished good material for instructors at the institute held here this week, and we provided a good attendance at every session of the institute which opened Wednesday afternoon at the Parish House and closed Thursday evening. The night sessions drew larger crowds than those in daylight and the last evening the room was taxed to its utmost to comfortably seat the people.

John A. Woodward is an excellent presiding officer and so conducted the sessions as to win praise. The instructors were all present but Prof. Surface, who was unable to be there by reason of illness.

The talks on fertilizing potato culture, dairy feeding, etc., were all plain, practical talks, just suited the needs of the farmers present and listened to with interest by those who were not agriculturists. Indeed, it was more than once remarked that it was wonderful how interesting a farmer's institute could be to those who could not farm.

The address of welcome was delivered by Rev. Penepacker and was especially apropos. In the absence of J. A. Gleason who was to respond, G. H. Litchenthaler made a very happy address. Prof. Wells W. Cooke, of Washington, D. C., gave a most instructive address on the economical feeding of farm stock, while Mr. Core, of Jermyn, this State, talked pleasingly and practically on orchards. Mr. Cure is a life long friend of C. C. Avery and is one of three brothers who are all specialists along some line.

The evening program consisted of music by the Glee club; recitations by Miss Reece and W. A. M. Streamer. Mr. Streamer and Miss Reece both won hearty applause as did also the singing.

A talk to dairymen on the effect of feed on the quantity and quality of milk by Mr. Cooke who is a specialist on feeding and who at the closing session of the institute gave an eye-opening talk on the economical feeding of the farmer's family. He is a delightfully, plain, exhaustive speaker and are sorry to know that since the government believes in the rotation in instructors we are not likely to have the pleasure of hearing Mr. Cooke speak here again

Thomas J. Philips, of Chester county, spoke on The Wife's Share," and his talk was full of sense. He urged the necessity of every man making a will and thus providing to the best of his ability for the future of the help meet, who had made success possible. He also urged the need of a wife's having a private income, however small, and her right to have improved implements for her work as her husband has for his.

The day sessions Thursday were well attended and the discussions much appreciated. Thursday evening's program was rearranged, owing to Professor Surface's absence, and "the economic use of commercial fertilizers" talked upon by Mr. Cure.

Professor Cooke's talk on food and food values was very entertaining indeed and it exploded the claims of whole wheat flour, breakfast foods, etc., as economic or nutritious foods, but he did claim that sugar was both wholesome and cheap food.

The speaker took the average prices of food and gave the average cost of the raw food material for each person in the average family at 30 cents a day, but he was away off on Philipsburg prices. You can't get flour here for 3 cents a pound, eggs at 20 cents a dozen, milk at 4 cents a quart and sugar at 5 cents a pound here now.

He showed that a varied diet was not absolutely necessary to health, but on this question many of his hearers will differ with him. The much abused pie crust didn't fail to come in for its share, but the explanation was so clearly given that it couldn't fail to convince, that is, until some new theory is expanded.

Rev. Russell, who made the invocation at the opening session, gave, by the request of the chairman, his impressions at the close, in a very happy vein.

Snow on Thirty-Six Days.

There have been 36 days this winter on which snow has fallen. They were distributed as follows: In November 5 days; in December 14, in January 14; and up to date in February 3. These 36 snowy days constituted 23 storms, 9 in December, 10 in January, and 4 in the first 6 days of this month.

A RECORD OF DEATHS

Those Who Have Gone to Their Final Reward

FROM CENTRE COUNTY.

Mrs. Barbara Lucas, Mrs. Mary Williams, R. C. Leathers, Mrs. Matilda McKnight and Others.

BIOGRAPHICAL SKETCH OF DEPARTED.

MR. R. C. LEATHERS.

Mr. R. C. Leathers died at his home in Howard, Wednesday morning at 10:30 o'clock. Five weeks ago Mr. Leathers underwent an operation in St. Luke's hospital, Philadelphia, for a serious internal ailment, but the trouble had become so deep-seated that it was beyond the skill of the physicians to save him. When he realized that death was inevitable he expressed a wish to be taken home to die, consequently he was brought home, last Saturday, lingering between life and death until the end came on Wednesday Feb. 8 h.

Deceased was 62 years of age and was born and raised in Howard township, living most of his life at Mt. Eagle, where he had quite a business built up in manufacturing tar paint for roofs. About a year ago he moved to Howard and has since lived with his wife's parents, Mr. and Mrs. Gardner. Surviving him are his wife and the following children: Mrs. Meda Bethurst and Miss Alice Leathers, of Santa Rosa, Cal.; Mrs. Hartsock, of Easton; Mrs. Swires and Leonard Leathers, of Brookville; Frank and Claire Leathers, of Howard.

The funeral took place Friday morning at 10:30 o'clock. The services were held in the Disciple church at Howard, of which deceased was a member for more than forty two years, and were conducted by Elder Delmont, of Tioga county, who has performed the last sad rites over a large number of the family connection who have died in the past.

MRS. MATILDA MCKNIGHT.

Mrs. Matilda, widow of the late Rober McKnight, died at her home in Buffalo Run valley, Thursday morning, of infirmities incident to old age. Deceased's maiden name was Matilda Kennedy and she was born in Ireland about eighty-four years ago. She was united in marriage with Robert McKnight in 1856, and soon after the young couple emigrated to this country, settling first in Massachusetts, going from there to Philadelphia and in 1857 coming to Bellefonte. The family lived here many years, during which time Mr. McKnight had charge of the Bellefonte gas works. About eighteen years ago they left Bellefonte and moved to their farm in Buffalo Run valley, later moving to Philadelphia where they remained but one year when they returned to the farm and there, in December, 1899, Mr. McKnight died. Mrs. McKnight was a most estimable lady and was loved by all who knew her. She was a consistent member of the Presbyterian church, Surviving her are her four children, viz: Robert B., of Philadelphia; Margaret, Annie and Matilda, at home.

The funeral took place Saturday afternoon at 1 o'clock. Interment in the Union cemetery at Bellefonte.

MRS. MARY WILLIAMS.

Mrs. Mary Williams, wife of Job Williams, of Port Matilda, died Friday noon at 12:15 o'clock at the home of her son, Foster Williams on West Howard street. Mrs. Williams had been in ill health for some time and her death was due to a general breaking down of the system incident to old age. The deceased whose maiden name was Miss Mary Ebberts, was born at Carlisle and was 73 years o age. She was the daughter of Peter and Mary Ebberts, highly respected residents of Carlisle.

She was married to Job Williams of Port Matilda, who survives her with the following children: Foster of Bellefonte; Bion of Curtins Works; Mrs. H. L. Closing of Rayton, New Mexico; and Mrs. W. P. Mitchell, of Madison, Wisconsin.

She also leaves, two brothers. Dr. Samuel Ebberts, of Jeffersonville, Ohio, and David Ebberts, of Landisburg, Pa.

She was a member of the Methodist church and a very highly respected christian lady.

The remains were taken to Port Matilda, Saturday afternoon and the funeral took place Monday morning. Interment in the Presbyterian cemetery at that place.

MRS BARBARA LUCAS.

The death of Mrs. Barbara Lucas which occurred at her home near Fair View Church in Boggs Township on Feb. 6th. 1905 removed from our midst an esteemed neighbor and honored mother. She passed away at the ripe age of 70 years, 11 months, and 15 days. Her parents were Jacob and Susannah Hawk. She was born in Union County but for over 69 years has been a resident of Centre County. On Jan. 23rd, 1854 she was joined in marriage with Morgan M. Lucas, who proceded her to the spirit land seven years since. To this union were borne ten children, all of whom were present with her during her last illness and together attended the laying to rest of her body. The following are the names and residences of the children: Carlton E. Lucas, Mrs. Nannie Watkins, James L. Lucas, Even R. Lucas, Misses Ella E. and Mary R. Lucas, and Mrs. Julia E. Confer, all of whom live in the neighborhood of the Fair View Church; Mrs. Orpha Clark, Blanchard, Pa.; Mrs. Jennie Whiteman, Snow Shoe, Pa., Thomas I. Lucas, Mt. Eagle, Pa. She is also survived by two sisters. Mrs. Rachael Shirk, Topeka, Kansas; and Mrs. Sue P. Fisher, Milesburg, Pa., and by 26 grand children.

The deceased has been a professing christian for about 54 years, being at the time of her death in the fellowship of the Disciple church. She was a faithful mother, whose memory will be a blessing to her children. As a neighbor she was kind and helpful and will be missed in her community. Funeral services were held on Thursday, Feb. 9th, at 10:30 o'clock in the morning, in the Fair View church, conducted by the Rev. A. C. Lathrop of Milesburg. This service was largely attended by relatives and neighbors who thereby attested their appreciation of her life. Interment was made in the cemetery adjoining the church, many friends extend their sympathies to the bereaved family.

The Academy Improvement Fund.

It may interest the readers of the News to state that out of the seventy-nine subscriptions thus far in the different papers to the Academy Improvement fund thirty-six represent distant places. It will further interest you, perchance, to know that a student of the Academy in the early seventies who walked every morning from a little town a few miles distant from Bellefonte, attended the Academy, and walked home again in the evening, sent a check for $100.00 to encourage the movement. He is cashier of a prominent bank in Montana. His name will appear in the Watchman of next week. Now, old students of the Academy who live in Bellefonte and the business firms who have had patronage from the Academy in the past or desire it in the future, are you going to let the students and other friends who live in distant points take a greater interest in the improvement of your Academy than you are taking yourselves. When June comes and such men as Charles Emory Smith stand upon Academy hill complimenting those interested upon the beautiful buildings and grounds that belong to you, will it be a source of satisfaction to you to feel that you contributed your share to effect the improvements? And, on the other hand, won't you feel you have not been as appreciative as you might have been of the Academy's history, to stand in that crowd attending the centennial celebration that some of you have been asked to give to the Academy.

Stir yourselves and do your duty. Your prompt action helps another.

Miller Now a Free Man.

Thomas Miller, formerly postmaster at Hawk Run, arrested at Fort Scott, Kansas, and brought to Pittsburg and tried before United States District Court on the charge of embezzling postoffice funds and misappropriation of money orders, was this week discharged with a fine of $50.00 and costs, which was promptly paid and he is now a free man. Mr. Miller was represented by Geo. W. Zeigler Esq., of Philipsburg.

Wants Pennsylvania Column.

Hon. P. E. Womeldorff, of Philipsburg, Thursday introduced in the house a bill appropriating $20,000 for the erection in connection with the Memorial Continental hall being erected by the Daughters of the American Revolution in Washington, of a memorial column for Pennsylvania.

Gen. Superintendent.

EXERCISE FOR BABY.

Give the Infant Freedom to Kick and Roll and Grow.

Tiny infants need exercise as much as other human beings do. They have a natural instinct for it. Watch even a very young baby as it lies in your lap with its clothing removed and see how it will twist and wriggle and move its little arms and feet. As soon as it is able it will toss them about, draw them up and thrust them out, often uttering little squeals and noises of contentment. His little efforts at original gymnastics should be helped, and he should be given a special chance each day to stretch his small muscles. A daily airing is not enough, and from the first the long skirts and bandages should be loosened regularly and his body given full freedom.

Put him on the bed at first and let him lie there and kick. Of course the room must be warm, so that he will not feel the lack of his skirts. Five or ten minutes of this fun will do his body a world of good. When he is several months old he can be put down on a rug after warm weather has come, but this would not be advisable during the winter, for floors are drafty.

He will not have enjoyed the rug on the floor so very long before it will be seen that he is learning to get about in some sort of way. His efforts probably will make creeping motions, or it may be that he is beginning to roll from place to place.

Some babies have been known to hitch themselves about seated on the floor. However he makes his progress, it really doesn't matter, for any of the movements is giving him the exercise he needs, and that is the main thing.

CULINARY CONCEITS.

Lamb chops are delicious if dipped in lemon juice just before broiling.

If onions are strong, change the water several times while they are boiling.

Potatoes will bake more rapidly if a pan of water is put into the oven with them.

Some cooks soak salt ham overnight in milk before broiling for breakfast. Salt mackerel is said to be improved by soaking in sour milk.

All starchy foods require long cooking. Albuminous foods, such as eggs, oysters, etc., must be cooked at low temperature or they will harden.

The novice should memorize this rule: White meats well done; dark meats underdone, except in fowls, which should always be thoroughly cooked.

Why Some Folks Go to Europe.

When New York society doesn't know what else to do it goes abroad. An ambitious woman gets wind of some rival's intended function. Not to be invited or not to be seen among the guests means a slight easily endured if the world be not cognizant of the fact, but intolerant if it is; therefore the ambitious woman sails away to Europe. She may not be gone six weeks, but her absence is thus to be accounted for. In other cases it is known that society takes this absent treatment to cure heart troubles, to escape social obligations that weigh too heavily on the income or, again, from sheer ennui it departs. This restlessness of certain sets in society would be dangerous were it not for the safety valve which that really overworked Atlantic ocean has become of late years. When all else fails, go to Europe.—Boston Herald.

The Beautiful.

Beauty prevails in spite of all we do. We may build ugly buildings, we may think ugly thoughts, we may wrinkle ourselves in worries or the contemplation of ugliness, we may even worship ugliness under the name of utility, but lightly, without an effort, the gentle hand of beauty descends upon all. Beauty may do her subtle work in many ways. Sun, moon, fog and rain are alike her servants. The fresh red houses, garish eyesores in the sun, become wonderful as they loom blood red before the man in the mist, or in a few years the red is quieted, and the searching light only makes it more beautiful.—Arthur Ransome.

Woman's Wisdom.

Women are the inheritors of the oldest, most universal human wisdom. They have more sense than men, for the simple reason that a man has to be a specialist, and a specialist has to be a fanatic. The normal man all over the world is a hunter or a fisher or a banker or a man of letters or some silly thing. If so, he has to be a wise hunter or a wise banker. But nobody with the smallest knowledge of professional life would ever expect him to be a wise man. But his wife has to be a wise woman. She has to have an eye on everything.—G. K. Chesterton in London Daily News.

Nerves and a Milk Diet.

An entire milk diet is an excellent thing for the woman who is troubled with insomnia. It is also good for the one who is so nervous that when she does sleep she has the sensation of falling and wakes with a terrific start. When these conditions exist it is well to subsist on milk alone for some time. A grown woman should take a pint of milk as a meal, but to keep up her strength she should take four meals a day instead of the usual three. People with weakened nerves require a larger quantity of water than those whose nerves and brains are strong.

Far From It.

Young Widow (to partner at ball)—Mr. Crogan, I've made a wager of a pound of chocolate that you are a single man. Mr. Crogan—Ye've lost, ma'am. I'm wan av thriplets.—Chicago Tribune.

GODPARENTS.

An Ancient Institution, Doubtless of Jewish Origin.

We must doubtless look to the Jews for the origin of godfathers and godmothers. The use of them in the primitive church is so early that it is not easy to fix a time for their beginning. Some of the most ancient fathers make mention of them, and through all the successive ages afterward we find the use of them continued without any interruption. By a constitution of Edmund, archbishop of Canterbury, 1236, and in a synod held at Worcester, 1240, a provision was made that there should be for every male child two godfathers and one godmother and for every female one godfather and two godmothers. King Henry VIII., referring to the Princess Elizabeth, says:

My lord of Canterbury,
I have a suit which you must not deny me—
That is, a fair young maid that yet wants baptism.
You must be godfather and answer for her.
—"Henry VIII.," Act 5, Scene 3.

A constitution of 1281 makes provision for a Christian name being changed at confirmation. This is practically a renaming of the child. The manner in which it was done was for the bishop to use the name in the invocation and afterward for him to sign a certificate that he had so confirmed a person by such new name. It is possible that this practice might have been in Shakespeare's mind when he wrote:

Call me but love, and I'll be new baptized.
Henceforth I never will be Romeo.
—"Romeo and Juliet," Act 2, Scene 2.
—Westminster Review.

Curried Meat.

Cut into dice two cupfuls of cold roast beef, veal, lamb, mutton or chicken. In a frying pan melt three tablespoonfuls of butter, and fry in it a sliced onion. Take out the onion and stir into the butter two tablespoonfuls of browned flour mixed with a tablespoonful of East India curry powder. When well blended, pour in a pint of stock and stir to a smooth brown sauce. Now add the cold meat, which should have been seasoned with salt and pepper. Toss and stir until heated through. Serve with boiled rice. It should be accompanied by bananas.

A Graceful Hand.

The most graceful carriage of the hand is with the second and third fingers held slightly together. To acquire this carriage practice the following exercise: Holding the second and third fingers together, curve them and the thumb in toward the palm of the hand until a perfect circle is formed, then open slowly until the fingers and thumb are again straight. Practice the exercise until the fingers naturally assume the above carriage when the hand is in repose.

Be Careful When Making a Home.

Most of us are careful when we make our wills. We should be far more careful where we make our homes. To the sensitive man or woman a place means very much. It affects the health of the body. It considerably transforms the mind, changing greatly the outlook on life. It even plays tricks with that very delicate piece of mechanism, the heart.—Robert Hichens.

Ginger Jars.

The person who would throw away the ginger jar after the ginger has been eaten has no appreciation of beauty. The jars are excellent for flowers and, being low, are especially adapted to table use. In pictures of Japanese arrangements of flowers jars of this shape are frequently seen, and no one will deny that the surface is as interesting as many expensive potteries.

What Women Are Learning.

The gift of commanding friendship is undoubtedly of far greater worth than beauty; but, like beauty, it can be to some extent cultivated. This is a fact not generally recognized. But then a few years ago women allowed themselves to age prematurely because they did not know of certain ways to keep themselves young both in appearance and manner.—Lady's Pictorial.

Economy In Table Linens.

When tablecloths are beginning to wear out in the folds cut two or three inches off one end and one side and rehem them. This process will change the places of the folds and will add new life to the cloth. Serviettes and towels should be treated in the same way.—Household.

Doll House.

By exercising a little ingenuity a bed for her dolly that many a small girl will find satisfactory may be made from the pasteboard boxes that find their way into most homes. The lid is stood on end and firmly attached to the box proper. Any soft, pretty fabric will serve for curtains and a valance if desired, and the customary bed furnishings may be as pretty as Miss Dolly or her little mistress could desire.

The Virtues of Vin-Te-Na...

Your knowledge of the workings of the "human machine" no doubt makes you aware of the fact that the nervous system is fed and sustained by and through the blood.

When the blood is charged with the elements which nature designed, the entire nervous system and all the organs are kept in a healthful state.

Without the force which the nerves absorb from the blood, both brain and body are poor machines. Vin-te-na contains just those elements which are wanting in impoverished, poor blood. It was found on both common sense and scientific knowledge. It has conscience and integrity back of it. Vin-te-na is the one medicine that does precisely what it was designed to do, i. e. gives life and nerve-food to the blood. It actually cures every one of those disorders which come from impoverished blood.

IN THE SHADOW OF THE GALLOWS!

Mrs. Edwards Has Made An Alleged Confession.

DID IT IN SELF DEFENSE

Says that She Alone Killed Her Husband and Exonerates Her Colored Paramour from all Blame.

NEW SENSATION IN READING CASE

Reading, Feb. 10.—Mrs. Edwards, who is under sentence to be hanged with Samuel Greason on Thursday next for the murder of her husband, made a statement to her council Thursday in which, it is said, she exonerates Greason from complicity in the murder. The statement will not be given to the public until it is presented to the Board of Pardons, but the inference is left that she has admitted that she alone committed the crime.

Mrs. Edwards and Greason, who is a colored man, were convicted of the murder of Edwards, and since the death sentence has been pronounced extraordinary efforts have been made to save them from the gallows. The Board of Pardons has heretofore refused to interfere and the State Supreme Court has affirmed the lower court's verdict.

Mrs. Edwards' confession it is thought will place the case in a new aspect before the Board of Pardons. The board will meet at Harrisburg February 15, the day before the date set for the double execution. If the woman's statement is accepted by the Board it may save the man's life. If the woman is spared it will therefore be entirely on sentiment, as strong pressure is being brought to bear on the Board.

In the trial much testimony was presented to show that Edwards was a dissolute character, that he drank heavily and treated his wife in a brutal manner.

It is expected that the execution will, at least, be postponed in view of the statement of Mrs. Edwards. It is said Mrs. Edwards' conscience has been troubling her since she has been receiving spiritual administrations of her former pastor, Rev. Stephen Schweitzer, and that Thursday she could restrain herself no longer and sent for the lawyers and made the statement. That she has not made a statement before is, it is believed, due to the fact that she desired to shield her daughter, Mary, and that to spare the daughter she shifted the blame to Greason.

Mary Edwards, the daughter, was tried for complicity in the murder but was acquitted. After her acquittal she went to St. Louis to live.

Another development in the case was received from St. Louis in the shape of an affidavit signed by the daughter. This affidavit, which is now in the hands of John Rothermel, counsel for Greason, is as follows:

"I wish to state that I was very angry at Samuel Greason for what he did to my mother, but he had nothing to do with the killing of my father that I know of, and therefore he should not be hanged for that crime. I certainly wish they would not hang my mother."

Mrs. Annie Kutz, of this city, also made an affidavit in which she states that after Mary Edwards had been acquitted she informed her (Mrs. Kutz) that her mother had struck her father on the head while he lay drunk, causing his death, that she (Mary) was present at the time; that Greason was not there, and that her story in court about Greason was not true.

INSPECTION OF CO B.

There Was a Large Attendance and the Boys Made a Good Showing.

The annual inspection of Company B, 5th Regiment, National Guard of Pennsylvania, was held in their armory on Wednesday evening Feb 8th commencing at 8:15 and as is usual on such occasions the hall was crowded with admirers of the boys in blue. Probably eight hundred people witnessed the company's various manœuvers and applauded their good work.

The inspecting officer was Major Samuel W. Jeffries, of Pittsburg, inspecting officer of the 2nd brigade N. G. P. with him were Maj. W. J. Nicholson, of the U. S. Army, Col. R. C. Elder, of Lewistown, Colonel of the 5th Regiment, and Capt. W. A. Simpson, of Co. H, 12th Regiment Lock Haven, Pa.

Other military dignitaries present were Col. W. Fred Reynolds, Col. Edward R. Chambers, Captain M. J. Locke, Major R. G. H. Hayes and an Orderly from the 14th regiment who was with Major Jeffries.

This is the first company of the 5th regiment to be inspected since the new tactics were adopted and the company's work under the able direction of Capt. Hugh S. Taylor, 1st Lieut. Philip F. Garbrick, and 2nd Lieut. Samuel D. Gettig, was watched closely by the military men present. The company maintained its usual splendid showing. They were put through the usual drills, marchs, setting up exercises, guard duty, manual of arms and showed great proficiency in every branch of the work. The clothing, guns and company's paraphernalia was also inspected and found to be in apple pie order. The company and its officers were highly complimented by the inspecting officer, Major Jeffries, for the efficiency and splendid condition in which he found the company.

The Coleville band furnished music during the inspection in their usual good style.

Bellefonte can well be proud of company B and these annual inspections are looked forward to with great interest by our people.

Susquehanna Notes.

Under president J. B. Focht, D. D., the work of the college in all its departments has been thoroughly organized and the work is in perfect working order, the best in the history of the Institution and there has been a large increase in the number of students.

There has been a decided gain of students in the college department which is manned by a corps of nine professors.

The Teachers' College and College Preparatory courses will open on Monday, April 3, and continue until Wednesday, Aug. 23. These courses give every teacher an opportunity to teach and take the entire college course. Students can to best advantage enter these courses on April 3rd and June 15th.

The Academy is under the principalship of Prof. E. M. Brungart, A. M., and five assistants, all of whom are college graduates and have had the experience of teaching in the public schools.

The Music department with a corps of five instructors is under the directorship of E. E. Sheldon, a graduate and postgraduate for three years; of the New England Conservatory.

The Business department is splendidly equipped under the direction of Prof. W. W. Reno and Miss Anna Kahler, both trained teachers of wide experience.

The Athletics are now under the charge of Chas. E. Teufel, A. B., a student of the Theological department. Mr. Teufel is the famous ex-Bucknell catcher. We will have during the spring term, one of the best college base-ball teams. Chester Weaver, the well-known pitcher, has been a student of the college during the entire year.

The basket ball team under the coaching of Mr. Teufel has won thus far, four of the five games played.

Prof. E. M. Brungart, of Rebersburg, recently entertained Supt. Gramley, of Centre county,

Prof. Brungart has the Academy in fine condition.

No More Stomach Trouble.

All stomach trouble is removed by the use of Kodol Dyspepsia Cure. It gives the stomach perfect rest by digesting what you eat without the stomach's aid. The food builds up the body, the rest restores the stomach to health. You don't have to diet yourself when taking Kodol Dyspepsia Cure. J. D. Erskine, of Allenville, Mich., says, "I suffered Heartburn and Stomach trouble for some time. My sister-in-law has had the same trouble and was not able to eat for six weeks. She lived entirely on warm water. After taking two bottles of Kodol Dyspepsia Cure she was entirely cured. She now eats heartily and is in good health. I am glad to say Kodol gave me instant relief." Sold by Green's pharmacy.

The Widow Again.

Mrs. Mary Welker, a widow, obtained a verdict of $825 in her breach of promise case against Henry Metcalf before a Blair county jury Wednesday. She had sued for $10,000 damages. This reminds us of what Dickens makes the elder Weller say to his frisky son, 'Samival bevare of dders."

Roosevelt and Fairbanks Elected at Last?

Washington, February 9.—Although the result of the presidential election was known early in the evening of November 8, it was not until Wednesday when the senate and house met in joint session, that Theodore Roosevelt and Charles W. Fairbanks were officially declared to be elected president and vice-president respectively for four years beginning March 4, 1905.

This quadrennial function of congress attracted to the house chamber, where the electoral vote was canvassed, an immense gathering, prominent among the auditore being Mrs. Roosevelt, Miss Alice Roosevelt, the president's sister, Mrs. Cowles, and Mrs. Charles W. Fairbanks, wife of the vice-president-elect. President pro tem Frye, of the senate, presided and delivered the announcement of the result of the count, which showed that Roosevelt and Fairbanks received 336 electoral votes and Parker and Davis 140. The whole proceeding consumed exactly fifty minutes, thereby establishing a new record in counting the electoral vote.

A Timely Suggestion.

Mr. D. Willis, James a wealthy merchant associated with the house of Phelps Dodge & Co., New York, is quoted by his intimate friends as having often said, that he believed it to be not merely dictated by expediency, but by a sense of duty, that all large gifts contemplated by a man of wealth, should be made during his life-time. He justified that view by saying that the giver could in that way be sure first, that his gift would be unsubjected to legal delays on uncertainties, and in the second place he could himself have some part in seeing that the benefaction was applied to the purpose intended, and in the way intended.

Mr. James has been very liberal to the needy with his means.

He practices what he says.

A Thousand Dollars Thrown AWay.

Mr. W. W. Baker, of Plainview, Neb., writes: "My wife had lung trouble for over gfteen years. We tried a number of doctors and spent over a thousand dollars without any relief. She was very low and I lost all hope, when a friend suggested trying Foley's Honey and Tar, which I did; and thanks be to this great remedy, it saved her life. She is stronger and enjoys better health than she has ever known in ten years. We shall never be without Foley's Honey and Tar and would ask those afflicted to try it." Sold by C. M. Parrish.

The State College Bank Elects New Officers.

The first annual meeting of stockholders and directors of the State College bank was held Tuesday Feb. 7th from 3 until 5 o'clock in room No. 7 Engineering building and the following officers for the ensuing year were elected:

President, W. C. Patterson; vice president, John W. Stewart; cashier, J. C. Kapp; directors, W. C. Patterson, Jno. T. McCormick, Prof. Reber, Prof. Jackson, John W. Stewart, W. L. Foster, John Weiland, Charles Foster and Rev. C. T. Aikens.

This banking corporation in its short existence of six weeks now holds on deposit $37,000 with resources amounting to $67,000.

A Meeting of the Bellefonte Chapter D. A.

The Bellefonte Chapter Daughters of the American Revolution met at the residence of Mrs. D. H. Hastings on Tuesday Feb. 7th and held quite an interesting meeting. Business of considerable importance was transacted.

Mrs. Harry Keller read an interesting and thoughtful paper.

Mrs. Evelyn Rogers was elected as delegate to represent the Chapter at the annual meeting at Washington D. C.

The National D. A. R., are going to build a Continental Hall in Philadelphia and the local chapter voted to contribute $50 toward the enterprise.

That Tickling in the Throat.

One minute after taking One Minute Cough Cure that tickling in the throat is gone. It acts in the throat—not the stomach. Harmless—good for children. A. L. Spofford, postmaster at Chester, Mich., says: "Our little girl was unconscious from strangulation during a sudden and terrible attack of croup. Three doses of One Minute Cough Cure half an hour apart speedily cured her. I cannot praise One Minute Cough Cure too much for what it has done in our family." It always gives relief. Sold by Green's Pharmacy.

Better Than Ever.

The 1905 edition of The World Almanac has just made its appearance. It is by far the best edition yet produced, as full of interesting statistics as a nut is of meat, containing 10,000 subjects and 100,000 facts and figures. In fact, The World Almanac for 1905 is the most authentic year book in print to-day. Sold by all news agents and book sellers at 25 cents per copy, or sent by mail by the publishers for 35 cents. BASKET BALL.

Academy Defeats B. A. C. by the Score of 25 to 10.

The first basket ball game in the silver cup series between the Bellefonte Athletic club and the Academy teams was played Thursday night in the armory before a large crowd of interested spectators and resulted in favor of the Academy boys by a score of 25 to 10. The playing of the Academy boys as to snappy team work and ability to "shoot" goals, was a surprise to all and especially to their experienced opponents who won the cup last year. Wilson Gephart as usual put up a star game for the Athletic club. While the honors of the evening were certainly carried off by Budd Walker who shot five goals from the field and three fouls scoring a total of 13 points for the Academy.

He is one of the cleverest goal shooters seen in the armory in many a day. No angle seemed too difficult for him.

Captain Beddall was as fleet as a cat and seemed to be everywhere at once.

He was well supported by the rest of the team, Roelofs, R. Atcheson and Dubarry playing a strong field game.

The feature of the Academy's play last night was the fact that every player succeeded in shooting goals. Look out for the next game. It will be for blood. The Athletics will work as never before to win the second game of the series.

The line up is as follows:

Academy		Athletic Club
H. Beddal (Capt.)	forward	Lane
Budd Walker	forward	Crider
Roelofs	centre	Keichline
R Atcheson	guard	Gephart (Capt)
Dubarry	guard	Furey-Taylor

Goals—Walker 5; Roelofs 2. Atcheson 2; Beddall 1; Dubarry 1; Gephart 2; Lane 1; Keichline 1.

Fouls—Walker 3; Keichline 2. Referee—Dunn, State College. Time keeper, Irvin Jackson. Time of halves, 20 minutes.

An Exciting Chase After Chicken Thief.

The Wellsboro Gazette tells of an exciting chase after a chicken thief as follows:

"Leopold Schwartz had a lively chase after a chicken thief on Tuesday night. About 8 o'clock as Mr. Schwartz came out of his house on Grant street, he discovered that one of his chickens had escaped from the coop, and about the same time he saw a man sneaking out of the back yard. He at once suspected what was up and started after the fellow, shouting 'stop thief!' The thief ran up Morris street to Racon street and in passing the residence of George W. Williams he slipped and fell down the terrace into the yard. He picked himself up and ran across the street into the school yard and disappeared behind the buildings. Mr. Schwartz was in hot pursuit of the thief and when he arrived where he had taken the tumble into Mr. Williams' yard, he discovered that the robber had dropped three chickens which he had stolen from his coop. He had also dropped a ladies' calico wrapper and a table cloth which he had probably taken from a clothes line."

—Winter coughs are apt to result in consumption if neglected. They can be soon broken up by using Foley's Honey and Tar. Sold by C. M. Parrish.

Thirty-Three Days Tour via Pennsylvania Railroad.

The Pennsylvania Railroad Company has arranged for a personally-conducted tour through California, to leave New York, Philadelphia, Baltimore and Washington, on February 16th, by the "Golden Gate Special," composed chiefly of Pullman parlor-smoking, dining, drawing-room sleeping, compartment, and observation cars, returning by March 21. This special train will be run over the entire route. The best hotels will be used where extended stops are made, but the train will be at the constant command of the party.

Round-trip tickets covering all necessary expenses, $375 from all points on Pennsylvania Railroad except Pittsburg, from which point the trip will be $370.

A Night Alarm

Worse than an alarm of fire at night is the brassy cough of croup, which sounds like the children's death knell and it means death unless something is done unless Tar never fails to give instant relief and quickly cures the worst forms of croup. Mrs. P. L. Cordier, of Mannington, Ky., writes: "My three year old girl had a severe case of croup; the doctor said she could not live. I got a bottle of Foley's Honey and Tar, the first dose gave quick relief and saved her life." Refuse substitutes. Sold by C. M. Parrish.

COMFORTING WORDS.

MANY A BELLEFONTE HOUSEHOLD WILL FIND THEM SO.

To have the pains and aches of a bad back removed; to be entirely free from annoying, dangerous urinary disorders is enough to make any kidney sufferer grateful. To tell how this great change can be brought about will prove comforting words to hundreds of Bellefonte readers.

James Hassie, farmer, living at Jersey Shore, Pa., says: "I seemed to be unable to find anything to give me relief from backache. I tried all of our home remedies and consulted physicians; besides to grow weaker and more painful. At length I saw Doan's Kidney Pills highly spoken of and recommended by Lock Haven people whom I knew, and I made up my mind to try them. I went to Lock Haven and Mr. Mason, the druggist, told me that I could not find any better medicine. I got a box and began using them, and inside of forty-eight hours I felt decided improvement. I was cured in a short time and have never had backache since. That is proof enough for me of the merits of Doan's Kidney Pills."

Plenty more proof like this from Bellefonte people. Call at F. Potts Green's drug store and ask what his customers report.

For sale by all dealers. Price 50 cts. cents. Foster—Milburn Co., Buffalo, N. Y. sole agents for the United States.

EDITORIAL.

WASHINGTON LETTER.

From our Regular Correspondent.)

Washington, D. C., Feb. 15th.

John Wanamaker, the merchant prince of Philadelphia and New York, was Postmaster General during the administration of president Harrison and one of the best Postmaster Generals, if not the very best the country has ever had. He strove to make reforms and improvements in the post office department, but soon found that he could not do much. He said recently that there were four reasons why he could not have a parcels post and other postal facilities that have long been enjoyed in Germany, France, England, Italy and other countries. There were four express companies then; there are six now. They are amalgamated into a trust. They are the successful rivals of the United States government in its own territory and in its peculiar domain monopolizing the most important of the postal carrying business compelling the people to pay many hundreds of thousands of dollars yearly and bringing the country through the postal system into debt when if it were not for these express companies there would be a yearly surplus to the credit of the post office. This condition of affairs could not exist in an alleged free country and under a republican form of government. It could not exist here were it not for the fact that it has behind it the boss of the most powerful state of the Union—a state that furnishes thirty nine votes in the electoral college and that represents a large proportion of the wealth of the Union, contains the largest city in the Union and with over twelve hundred millionaires, many of them rich in Express company stock. How long, O, How long will the country tolerate this particular octopus? Will it continue after the decrepit Senator, who is now the president of the express company trust and its attorney in the Capitol has passed away? The thieves in the post office department were sent to Moundsville penitentiary this week. The beef trust is supposed to have received a stunning blow from the Supreme court of the United States, The railroads appear to be docile and plastic to legislation. May we not hope that this entrenched trust may also have to loosen its grip?

In the great inaugural parade on the Fourth of March 35,000 men will march on Pennsylvania Ave Of these five thousand men will be United States regulars 12,000 state militia and about five thousand civilians from all parts of the country. The four great races will be represented for Indians, Filipinos and negroes will march beside the white man. The president will be escorted by a squad of his own "rough riders" and this with the other features of the show will make it more bewildering than a three-ringed circus. The route of the parade, however, will be contingent on the condition of Pennsylvania avenue. That thoroughfare is occasionally under water and it may be that the procession will have to make a detour to reach the Capitol. The snow fall of this winter is almost unprecedented and when the waters begin to rise they may submerge the avenue. March fourth is an especially favorable time for a flood and the Inaugural committees are anxiously awaiting the date Stands are to be erected along the avenue and for from fifty cents to a dollar a person may buy a seat from which to view the parade. Many thousand dollars are invested in these stands which are uncovered and the investor risks all his money on the state of the weather. If the sun shines he sells his seats and makes a haul. If it is cold and snowy he draws a blank. Windows in hotels and business houses along the avenue are engaged in advance. The prices range from five to fifty dollars a window, the latter being the price asked in the New Williard and Raleigh hotels for a room with a window on the avenue for the day. In these high priced stations prominent officials or residents collect a number of their friends and serve luncheon and make a social affair of the occasion. Humbler citizens are content to pay twenty-five cents for a dry good box near the edge of the pavement on the route of the parade and the enterprising African who can gather together a number of boxes, or get his wagon in a good situation is sure of having patronage. The committee this year, it is said, will not permit wagons and dry good boxes along the route, but there are pretty sure to be some cheap coins of vantags somewhere.

One week more for work.

Republicans, do your duty! Perform it.

Elect the Republican candidates for council and school directors and you will make no mistake.

Be a Republican worker yourself. Don't depend on somebody else, but talk and work every place and at all times.

We insist that it is only a question of getting out the Republican vote. Do this and the victory will be won.

If the Republicans of every ward and precinct in the county make a special effort they can largely increase their vote. And that would tell the story.

Bellefonte is a Republican city and will continue to be unless indifference results in a set back. Individual effort is the remedy against such a contingency.

In this issue of the Republican you will notice the announcement of the candidacy for Sheriff of Henry Kline of Spring township. Mr. Kline is a stalwart Republican, a good citizen and would make an excellent sheriff. He is early in the field and evidently believes in taking time by the forelock.

What the Ministers' Require.

Protestant ministers of Carbondale have sent out a circular letter on the subject of funerals Their demands are: No addresses at Sunday funerals, and no funerals on Sunday except in extreme cases. Men to refrain from the use of tobacco in any form in a funeral procession Only the pastors of the dead to officiate. The saying of the committal service at the house, so as to avoid the long drive to the grave and absolute quiet at the servicees.

Nature has just one pigment on her palette with which she produces all the marvelous tints of beauty, that one pigment is the blood. The shell-like pink beneath the finger nails, the delicate rose of the cheek, the cherry ripeness of the lips, the irridescent brilliance of the eyes are all produced by the blood. Just as the permanence of a beautiful painting will depend upon the purity of the colors with which it is painted, so the permanence of beauty depends on the purity of the blood. Paint, powder and cosmetics won't avail to preserve beauty. Beauty begins in the blood. Dr. Pierce's Golden Medical Discovery is a true beautifier because it provides for nature that pure blood with which alone she can paint. The use of this medicine will cleanse the skin, heighten the complexion, brighten the eye, and give to face and form that radiance of health which is the greatest charm of beauty. Dr. Pierce's Pleasant Pellets are very effective in ridding the system of clogging residuum, which accumulates with constipated habit.

—Mingle's great shoe sale will be legitimate and strictly as advertised.

—"The Arena" has by a single bound regained its old place among the foremost reviews of the New World. The typographical make-up and artistic features of the magazine are incomparably better than ever before in its history. The introduction of a number of large portraits in sepia ink on India-tint paper constitutes a striking art feature that is adding greatly to its popularity. The Editorial Department, since Mr. Flower again become sole editor, is one of the most attractive and interesting features of the review, as here every month are found a number of trenchant editorials that stipulate and tend to awaken the conscience side of life. Mr. Flower's Book Studies and Reviews make "The Arena" especially valuable to book lovers and those who are building libraries; while the essays are by leading thinkers on live and important subjects, at once attractive, timely and of vital concern to the well-being of the nation and the individual. The February table of contents is typical of what the magazine is under its new management. The opening article is a profusely illustrated comtribution by Rudolph Blackenburg, the eminent Philadelphia merchant and civic leader. In it we have a merciless expose of the rise and onward march of corruption through the guidance of the late Senator Quay, aided and abetted by great corporate interests. How Norway and Sweden have solved the liquor problem is the discussion of another discussion showing the results of the public control of the liquor traffic in Scandinavia, But perhaps the most startling and amazing contribution in this issue is the expose of the Armour Refrigerator-Car Trust made by W. G. Joerns, a well-known journalist and lawyer of Duluth, Minnesota. This paper, which is largely based on the sworn statement elicted at a recent hearing before the Interstate Commerce Commission, is also fortified by the testimony of other individuals and by the citation of illustrative cases. It is a powerful arraignment of an almost incredible condition, wherein moral turpitude has reached its apogee and by which competition is being utterly crushed and the American people are being plundered of millions upon millions each year to swell the coffers of this trust. This condition would be impossible were it not for the aid and connivance of the railway companies. "The Expansion of Municipal Activities," by the Secretary of the National Municipal League, Mr. Clinton Rogers Woodruff, is another paper that will be read with deep interest by thoughtful Americans. Among other notable articles we mention "Matthew Arnold as a Poet, "The Impurity of Divorce Suppression" and "Garnet Warren, Cartoonist," a character sketch.

Grout Law Convention.

It is many a day since a stronger demonstration was made in a mass meeting on proposed legislation than was made in Harrisburg, January 16, against the repeal of the Grout law. Addresses were delivered by Governor Pennypacker and U. S. Senators Penrose and Knox.

Fully 250 farmers had come from all parts of the State at their own expense. It developed that at least three-fourths of them were members of the grange. In this great organization farmers are led to think for themselves. They keep posted on current events and are ready to act promptly when their interests demand it.

There is little doubt that the oleo people have given up the fight for the present session of Congress. There is no more doubt that they will be at it again in the future.

Does any one doubt that if the granges of the land were all to disband, the oleo combine would soon wipe the Grout law off the statute books. and with it all profits out of the dairy business. With even half of the farmers in the grange their efforts would be blocked for all time.

Fellow farmer, do not these facts apply strongly to you to join the grange and help?

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

A Practical, Helpful Farm Paper.

To the Editor of The Tribune Farmer.

Sir: Again I greatly appreciate the fact that I can come to you for advice. I would wish that all the farmers fully estimated the value of the New-York Tribune Farmer. It appears to me a choice periodical of its kind, rich in all its departments, but especially so in all that pertains to veterinary science. I have been a subscriber and reader of quite a long list of agricultural papers, but to me the New-York Tribune Farmer brings more real, practical, helpful assistance than any I have ever read. There may be others as good, or better, papers for the farmer, but I have failed to discover them asiyet. Yours very truly,

CHARLES S. BODMAN.

Gouverneur, N. Y., Nov. 29; 1904.

Through a special agreement with THE NEW-YORK TRIBUNE FARMER we will send it with the Republican both papers, one year, for $1.00. Send your name and address to the Republican, Bellefonte, Pa.

F. E. B.

We heard a man say the other morning that the abbreviation for February—Feb,—means Freeze everybody, and that man looked frozen in his ulster. It was apparent that he needed the kind of warmth that stays, the warmth that reaches from head to foot, all over the body. We could have told him from personal knowledge that Hood's Sarsaparilla gives permanent warmth, it invigorates the blood and speeds it along through artery and vein, and really fits men and women, boys and girls, to enjoy cold weather and resist the attacks of diseases. It gives the right kind of warmth, stimulates and strengthens at the same time, and all its benefits are lasting. There may be a suggestion in this for you.

The Tribune Farmer.

Every farmer subscriber of the Republican needs a firstclass agricultural family paper to keep him in touch with all the improved methods of working his farm for the largest profit.

A special contract with the New-York Tribune Farmer, the most thoroughly practical, helpful, entertaining, agricultural family paper in the country, enables us to furnish it with the Republican both papers one year for $1.00. Send your order and money to the Republican, Bellefonte, Pa.

Examinations for Permanent Certificates.

An examination for Permanent Certificates will be held in the Court House, Bellefonte, April 21st and 22nd, 1905. All persons who expect to become candidates for such certificates will please correspond with the undersigned.

—Miss Bob White has broken more records for big business and has opened several new theatres where capacity has been tested, but it scored in Atlantic City a record which is likely to exist for some time. It opened its season at the theatre on Young's Pier in that place. They had played "A Chinese Honeymoon and was succeeded by "The Silver Slipper" which held the record for big business. John Young, veteran life saver and fisherman, now proprietor of the amusement interests in the Jersey metropolis, freely acknowledges that he made more money off Miss Bob White, the play gave better satisfaction and he had more people on his pier during its two weeks engagement than at any one time since he has played to the amusement loving public by the sad sea waves. Miss Bob White has been booked here and will be seen in a few weeks.

J. R. FLICKINGER, Prin.

Fall term 15 weeks begins September 5th 1904.

Last year was the most successful in the history of this important school—about 700 students. Location among the mountains of central Pennsylvania, with fine water, splendid buildings and excellent sanitary conditions make it an ideal training school. In addition to its Normal course it also has an excellent College Preparatory Department in charge of an honor graduate of Princeton. It also has departments in Music, Elocution and Business. It has a well educated Faculty, fine Gymnasium and Athletic Field.

CORRESPONDENCE

Unionville.

—=

No. 1.

It is with considerable trepidation and any amount of misgivings that I grasp the quill and endeavor to enlighten the many readers of the Republican what great and mighty deeds are being enacted in this, the best and prettiest village in the Co. Unionville became a borough in 1859, and will be a city just as soon as we can grow men with larger stomachs and can get the Board of Health rounded up long enough at a time to pass resolutions against pestiferous troubles to keep us awake at night. Lots of people out in the township don't know the immensity of this place, hence it is impossible for folks at a distance to have any adequate idea of the amount of wood that is hewn or water drawn.

We have one monster grist mill run by steam or water, conducted by C. and D. Buck and operated by Frank Smith and W. H. and R. E. Conley. There is nothing strange about this mill except one of the wheels and that is, the second turn it makes is just like the first.

We have three large stores, two blacksmith shops, a broom factory, a saw mill, a dentist, two Drs., lots of pretty girls, 'squires and two satellites. Dode Harper says the lights we have are plenty good enough without going to the expense of buying others. The word is not a common one on terra-firma but rather of a celestial or astral nature, but as few around here go in that direction the word is not much used. Well, I'll tell you. A satellite is a fellow who clerks in a store, teaches school, pounds on shingles, threshes buckwheat till he is canonized and then he takes to writing for a paper. Yes, sir, we have two, Chas. Emory Smith and Henry Walterson. A great dinner was given last week by "Domino" in honor of the new correspondent for the Republican.

The town council, Board of Health, and school board lined up to a man. Some one intimated that "Domino" was short for Dominick and that he was an Italian Count in disguise.

So much, Mr. Editor, for a starter and it is a great question if Horace Greely made one-half as big.

Unionville is not only an ordinary station on the B. E. V. R. R. where the many trains stop daily, but it is also a depot for coal, bark, ties and props for both the bituminous and anthracite mines. Ten teams are daily hauling in props, thirty feet in length and loaded on cars by a derrick in charge of Jack Kirchner and when anything gets in a kink, Jake becomes emphatic and applies a little sulphate of Hades when out kanks the kink.

Phoenix like, the Spotts Bros. have their lower mill in operation again since their late blaze and everything is going on smoothly. Finishing up their job east of town and will soon be ready to start their large gang mill in town on McKean and Buttonwood Sts.

Owen Underwood has sold his large tract of tie and prop timber across on the side of Muncy mountain to Mr. Byers, of Tyrone, and Nelson Wolford, Enoch Heaton, W. Jackson Summers, Wm Keatly, Joe Resides, John Lucas and others have started to cut.

On Saturday last, Chestnut St. became all at once very dark and we thought there might be an eclipse on the sun but on looking up we saw the ponderous body of Philip Straw looming up betwixt us and the orb of day. Delighted to see you Philip and so glad you are looking so well. Philip is one of the prosperous farmers of Huston Twp. and comes down to our town for good advice, flour, feed and other chewing.

One morning last week the passenger train stood longer than usual when a dapper young traveling man got off and stepping loftily along the porch looking up the street in a wise manner, inquired of some boys: "Why do people call this Unionville? Alfred Heaton surprised at such a question answered. "Why—er. Why, that's its name."

E. M. Lucas, of Dix Run, bundled his whole family into a sled on Sunday last and drove over the mountain to visit W. H Witmer below Fillmore. Mrs. Witmer is a sister to Mr. Lucas.

Henry Lytle, of Fulton Bridge, gave our town a call last week to do some heavy shopping. According to the Fillmore correspondent in the Gazette, Henry is the Peter Herdic of Fulton Run, and certainly takes a unique method to get corn wood down of Gobbler's Knob.

Mr. and Mrs. Howard Miles, of Port Matilda, are visiting the home of E. M. Lucas, Mrs Miles' parents. They have been residing of late in Pittsburg, where Mr. M. is employed. They are making sale of their goods at Port and will return to Pittsburg soon. Mrs Mary Hicklen, of Mt. Eagle, is also visiting her sister, Mrs. Lucas.

Teachers' local institute was largely attended on Friday evening and Saturday last Nothing wrong with the zeal of the teacher when they turn out in zero weather such as we have had of late

"Domino" turned several hand springs, walked a tight rope and gave a few lessons in boxing and exhibited many features of school government that made him a success in "Auld Lang Syne."

The venerable looking Henry Norris, of Fillmore, gave us a short call on Saturday, took in the "toot" and re-crossed the bridge. Come again.

The good people of the Free Methodist church have been holding a revival meeting and are holding their own nobly.

The last sermon was preached in the Evangelical church on Thursday evening by the pastor in charge. The last of the conference year will be preached by the presiding elder.

Joe E. Barton has just gotten over a very bad case of laryngitis or tonsilitis, I don't know which, but if it were corns he would know which.

Miss Ella Murray and Miss Davis came also on Saturday to the institute from Julian.

Who writes for the Republican? Answered next week.

I must close, Mr. editor, as I am beginning to get lumber and if I get lumber and hold my breath I'll start to writing poetry.

Not I, says Joe Gill, who lives on the hill,
Nor I, says Parsons Billy.
So it must besome one up the pike
As it seems so awful silly.

No. 2.

I presume the good people throughout the county know with out being told that the weather has been extremely cold, though it is the popular thing on meeting a friend or writing a letter, to tell him that it "is cold," just as though he could not feel and judge for himself as well as me. Things are happening every day about our town, and if "Domino" did'ent do a good bit of dreaming, he couldent fill the "Centre Democrat" so full every week, he also watches around the corners pretty sharp or he wouldent know so many things.

On last Tuesday evening Mrs. Thomas Fisher entertained a large party of lady friends at her home, and gave them a right royal time, as Mrs. Fisher knows how to do it, refreshments were served up to date and were delicious. Among the company was Mrs. Newton Spangler of Bellefonte.

On Wednesday Mr. Wm. Alexander very generously hitched to his sled and drove around town and gathered a load of his wifes friends and took them over to Buffalo Run, to the home of Mr. Harry Shivery, Mrs. Shivery being a sister of Mrs. Alexanders, others went in sleighs and each lady took a basket of good things and loaded the table with them when they reached there, so full that no one could begin to do justice to all the good things. They say they had a fine time, as Mary Jane Shivery can well testify to.

Eugene Hall came home from Virginia last week, where he had been on business and is seriously ill, he with the rest of his family have the sincere sympathy of the entire community.

On Friday and Saturday last, a Teachers' Local Institute was held here, this being the second Institute this winter, for district No. 5, it was largely attended by teachers from all parts of the district as well as the citizens here. On Friday night a full house was entertained by Miss Faxon of Bellefonte, elocutionist the two sessions on Saturday were made very interesting by discussions on important topics. Music from a choir led by the proficient organist, Mrs. Sarah Brown, recitations, and speeches. Professor Etters of Bellefonte was present with his timely talks and humorous speeches, and helped out very much when others whose names were on the programme were absent. The Institute was apparently a success in every way, and thanks are due our valuable teachers here, Miss Alice Buck and Mr. J. A. Pratt, for their untiring efforts to make it so, none of our teachers should fail to avail themselves of these opportunities of advancement in their particular line of work

Rev. S. S. Berger the Presbyterian minister here was unable to fill his appointment last Sunday evening on account of ill health.

Rev. Piper preached in the merning in the M. E. Church he is at present conducting a revival service at Milesburg.

The Free Methodist are conducting a big revival meeting here and are meeting with some success.

The Friends Quarterly meeting will be held here on next Sunday and Monday, all people are invited to be present. minister Reuben P. Kester of Grampian.

"VIOLET."

Port Matilda.

On Wednesday of last week Mrs. A. W. Reese, Mrs. J. W. Williams, and son Stanley, Mrs. S. S. Miles, all of this place, and Miss Anna Eastman, of DuBois, visited in Julian.

Wm. Weston, of Gallitzin, arrived here on last Wednesday evening and visited at the home of his parents, Thomas Weston, on Thursday.

Prof. J. A. Williams, principal of schools here, was laid up on last Friday with a very sore throat.

The remains of Mrs. Job Williams was brought here on Saturday to her son, M. C. Williams' home and was interred in the Presbyterian cemetery in this place. Services were held in the M. E. church. Mrs. Williams died on last Friday at the home of her son Foster Williams in Bellefonte. She was 75 years old. She had been ailing for about a year from heart and lung disease. She is survived by three sons, namely: Mock, of this place; Bion, of Curtin, and Foster, of Bellefonte; all married, and one daughter, Cora, who is married and lives in New Mexico. She also is survived by her husband, Job Williams, of this place.

There were two sled loads left here on Monday evening to attend the Institute in Unionville. Both parties took supper at Wm. Peters, of that place, and seem to have enjoyed themselves very much. All were said to eat hearty except Victor and they say he worried so much. It has been said that one fellow spit in his lady friend's ear which must have froze as she is having trouble with her ear any way.

Frank and A. B. Woodring, of Tyrone, visited in this place on Sunday.

Mrs. Elizabeth Lytle, Mrs. H. C. Woodring, Mrs. Wm. Crain, all are on the sick list.

Pleasant Gap Items.

Tuesday morning was the coldest this winter, the thermometer registered 15 degrees below zero, maybe it was cold because Dan Cupid had the day. Tried to scare him out so the lads and lassies would not get their valentines.

The "person" who wrote last week's "Pleasant Gap Items" had an idea he was doing a smart thing when he sent it in with somebody elses name signed to it. It wont seem so smart to him if he is found out. If anybody has news, decent news, for a paper, send it in by all means with your own name to it but don't send anything you are ashamed to own or afraid to own, under cover of some body elses identity. It isnt as difficult to discover the real author as you imagine.

Thomas Noll sold his household goods and moved his family to Pitcairn where they will reside in the future.

As to the Sheep street wedding, it was all right and the bride and groom are far better and more highly respected than the one who had the brass to criticise it. Everybody has a right to their name which nobody else has and the best way is; if ashamed of your name have nothing to say. It is my advice to the "person" to let last week's "good bye" be the last until he can be honorable enough to use his own name.

Mr. John Mullinger is not well at this writing. Dr. Lee of Centre Hall is attending him.

Dr. John Bilger is still improving although slowly.

Rev. J. R. Melroy, pastor of the M. E. Church at this place, showed his views and delivered his lecture on "A Journey through Japan" on Monday night.

Following are a few lines composed on Joe-Pat or Mellins Food:

To please the public, which he should,
Joe-Pat is selling the best of food.
We hope the progress he will make
Will be in proportion to that on the lake.
This food is guaranteed to be of the best
And shipped through the wild and wooley west.
The samples of this food were delivered free,
And a special one sent to Mr. J. B.
The reason this food is fast selling,
Because it is put up by Mr. Mellin.

BRIEF MENTION

Short Items of Local Interest Gathered By The Way Side

—The infant daughter of Mr. and Mrs. Samuel Miller, of Phoenix Street died Friday afternoon.

—James Lose has retired from the cigar store in the Bush house block and George Eckley has taken his place. The firm is now Rearick and Eckley.

—Among the applications for liquor license this spring is one from Philip F. Garbrick for a wholesale beer license for the West ward of Bellefonte Boro.

—1905, is a year full of Sundays. It started and ends with a Sunday; it has more Sundays than any other week day, and has five months with five Sundays each.

—"Little Colds" neglected—thousands of lives sacrificed every year. Dr. Wood's Norway Pine Syrup cures little colds—cures big colds, too, down to the very verge of consumption.

—At the old reliable store of Sechler & Co., can be found fine buscuits, cakes, crackers, breakfast foods, dried fruits, ham, breakfast bacon; In fact everything to be found in a first class grocery store.

—Hon. Charles Emory Smith of the Philadelphia Press will be one of the drawing cards at the coming Centennial celebration at the Bellefonte Academy in June. Other surprises will be announced in this connection later.

—Editor W. H. Brainard, of Curwensville, who has been in Florida some time for the benefit of his health, was brought home Wednesday night in a most precarious condition. We understand there is very little hope of his recovery.

—Are you going to have a public sale this spring? If you are, and are wanting sale bills printed, we have the type and facilities to get out any size in a short time, and at prices that will be satisfactory. Also all other kinds of printing neatly and expediently executed.

—Charles Miller, the enterprising cigar and tobacco dealer in the Crider Block, has purchased the Yale Wonder clock from Charles Cruse which was formerly in the latter's Bush House cigar store and it is now attracting trade to Mr. Miller's cigar emporium.

—The melting of glaciers in the winter has called for explanation. Dr. R. van Lendenfield, of Prague, believes that the earth's interior heat cannot account for more than three to six per cent. of the effect, but that the principal source of the melting is the heat from the work of the ice in descending. The pressure of winter snows would probably somewhat increase the internal melting.

—In the electrical bleaching of flour by the lately patented process of J. N. Alsop the apparatus consists of two arc lamps in parallel, with a coil yielding an eighteen-inch arc. The arcs are enclosed by tubes, and the air in these is electrified, producing a gaseous mixture containing nitrogen peroxide and traces of ozone. The gas is drawn off into a revolving hexagonal drum, where it is thoroughly incorporated with the flour. The treatment not only bleaches and purifies, but is claimed to add to the nutritive quality, analysis showing increased nitrogen.

—The February "Woman's Home Companion" is packed with good things from cover to cover. A unique feature is a double-page drawing showing "How Uncle Sam is Spending Hundreds of Millions of Dollars to Make Washington the Most Beautiful Capital in the World." Other features are: "Ice-Yachting—The New Sport for Women," and "The International Sunday School Invasion of the Holy Land." The fiction includes stories by Louis Tracy, G. T. Evans, Madge L. Axford and Fredick Smith. Mrs. Lincoln gives her twelve favorite recipes. There are helpful articles on valentine parties, new ideas in fashions for men and women, and a number of contributions from women on "How I Earned My Own Support." Published by The Crowell Publishing Company. Springfield, Ohio; one dollar a year; ten cents a copy.

—The newest, and, to a certain extent, a most welcome invention, has arrived in the form of an electric hot-water bottle, says the Marconigram. It might more exactly be described as an electric bottle. It resembles its predecessor in appearance, but contains no water, and is otherwise a vast improvement upon anything heretofore put out. In place of the water there are fine coils of wire which attain a given heat and maintain the same temperature as long as they are kept in use. The bottle is simply connected with a plug in the electric lighting fixture, and the current passing through the coils, heats them to the desired temperature and maintains it. It is obvious that there is no danger of being scalded, of the bottle being too warm or getting cold, and, once applied there is no need of giving it further attention except to remove it; then, too, there is no delay or inconvenence as when it is necessary to heat water on a fire. This device performs its work so simply and perfectly that its practical value is beyond dispute wherever one has the requisite electrical connections.

Woman, 80 Years Old, Baptized in Icy River.

Philadelphia, Feb. 10.—In an invalid's chair, a woman past 80 years old and paralyzed on one side, was wheeled out on the ice and baptized in the Delaware river Monday, opposite East Camden.

Those who saw her taken from the hole made in the ice though she had succumbed from the cold. For a few moments she gave no signs of life.

The woman is Rosie Bradley of 1340 Decatur street, Philadelphia. She was baptized by Elder Skinner of the Church of God.

Attended by five elders, who walked on the ice in bare feet, the old woman sang, in a feeble, trembling voice, as she was rolled in her chair to the place of baptism.

She was lifted off the chair, and lowered through the ice into the river.

Quickly she was replaced on the chair, and hurried to the shore, where she was cared for in a cabin. When she was taken home later she showed no ill effects from her experience.

Married After Sunday School.

A wedding occurred in the auditorium of the Lutheran church, of Lock Haven, immediately after Sunday school, Sunday afternoon, which created no little stir among the members of the school of a marriageable age.

The contracting parties were Frank F. Mertz, of near McElhattan, and Miss Sadie Fleisher, of Lamar. The young couple were attended by John Shultz, of Lock Haven, and Maggie Mertz, a sister of the groom. The groom is an exemplary young man, an employe of the Pennsylvania railroad and a member of Mrs D. E. Rupley's Bible class, which consists of 20 young men. The groom-to-be gave his teacher, Mrs. Rupley, the tip what was to occur immediately after the Sunday school hour and she had her class present as witnesses of the pleasing event. Rev. D. E. Rupley was the officiating clergyman.

The bride is the daughter of Mr. and Mrs. Harry Fleisher, of Lamar, and is an estimable young lady.—L. H. Democrat.

A Practical, Helpful Farm Paper.

To the Editor of The Tribune Farmer.

Sir: Again I greatly appreciate the fact that I can come to you for advice. I would wish that all the farmers fully estimated the value of the New-York Tribune Farmer. It appears to me a choice periodical of its kind, rich in all its departments, but especially so in all that pertains to veterinary science. I have been a subscriber and reader of quite a long list of agricultural papers, but to me the New-York Tribune Farmer brings more real, practical, helpful assistance than any I have ever read. There may be others as good, or better, papers for the farmer, but I have failed to discover them as yet. Yours very truly,

CHARLES S. BODMAN.

Gouverneur, N. Y., Nov. 29; 1904.

Through a special agreement with THE NEW-YORK TRIBUNE FARMER we will send it with the Republican both papers, one year, for $1.00. Send your name and address to the Republican, Bellefonte, Pa.

A Pocket Library.

To the man who cannot accumulate a library of data that will bear upon his business pursuits the 1905 World Almanac is indispensable. The man who lives in the small suburban town or village will find in the Standard American Annual Items of everyday reference. Although he may be considerably removed from the great commercial centres, it will put him so closely in touch with their daily happenings—in fact, with the progress of the world—that he will virtually move in a metropolitan atmosphere The World Almanac helps a man to keep pace with the age in which he lives, it is an educator. Price, 25 cents; 35 cents by mail.

Elks Home at St. Marys.

The construction of a large three story building by the B. P. O. E., St. Marys lodge No. 437, is assured. Work will begin in the summer. The building will be on the lot purchased by the Elks at the corner of Brussels and Michael streets. Committees are now at work selecting plans and devising means for securing funds. It is probable that bonds bearing interest will be issued to meet construction expenses. The building will cost $30,000. The first floor will be devoted to store rooms, with a basement available for restaurant purposes. The second floor will be used as social rooms by the Elks. The third floor will be the lodge room.

SEED TIME

The experienced farmer has learned that some grains require far different soil than others; some crops need different handling than others. He knows that a great deal depends upon right planting at the right time, and that the soil must be kept enriched. No use of complaining in summer about a mistake made in the spring. Decide before the seed is planted.

—The invention of new methods for sending a number of messages simultaneously over the same wire continues, and one of the most recent of these is due to Prof. Mercadier, of the French High school for Post and Telegraph. In this method an alternating current is employed whose frequency depends upon a tuning-fork having a certain number of definite vibrations. The current of such an interrupted circuit can be broken by an ordinary key, and signals transmitted over the line wire by an induction transmitter. On the line at the distant station are a number of so-called monotelephones which respond to current of one frequency, and are tuned to the forks in the circuits at the sending station. Thus each particular circuit has its own telephone, which is connected by tubes with the ears of the receiving operator, and responds to the signals made at the sending station. In all, twelve transmission circuits are provided, so that twenty-four messages may be sent over the line simultaneously. —Harper's Weekly.

LOST.- An opportunity to be happy by a young lady who did not chew CHICLETS.

Bishop Darlington's Letter of Acceptance.

The following is the letter of acceptance of Bishop James Henry Darlington :

Christ Church Rectory,
481 Bedford, Avenue,
Brooklyn, N. Y., Feb. 7, 1905.

To the Rev. Walter Russell Breed, D. D., the Rev. Charles Morrison, A. P. Perley and George S. Comstock, committee of Notification, Diocese of Harrisburg.

Gentlemen : I need not assure you how fondly I appreciate the honors which the convention of the Diocese of Harrisburg has conferred upon me. You can well understand, I am sure, what it has cost me to receive and consider such a call while surrounded by the activities, persons and places which now, more than ever, remind me how strongly parochial ties have been bound about my heart through these many years. Still with a most lively sense of what it means, I am thankful to recognize, after days and nights of prayerful thought, the path which seems plainly revealed as the one of duty.

Therefore, I beg leave hereby to signify my acceptance of the election by which the convention of the Diocese of Harrisburg has chosen me for the office of Bishop of that diocese. It shall be the will of the church to confirm the election, I shall endeavor, so far as in me lies, to make wise use of the great opportunities which belong to the post of duty.

I tremble with the consciousness of human limitation, but rejoice in the confidence of help from the Almighty Father from whom I believe this call has come and rejoice also in the thought that my brethren of the clergy and laity will favor me with their continued sympathy, prayers and encouragement.

It is a privilege to help on the work of a diocese which, though new, has in its former relation such a noble history of consecrated services for our common inspiration.

Thanking you for your courtesy in presenting to me your message in person, and cherishing the hope of abundant blessings for a diocese which you represent, I am,

Very faithfully,
Your friend and servant,
JAMES HENRY DARLINGTON,

Give Your Stomach a Rest.

Your food must be properly digested and assimilated to be of any value to you. If your stomach is weak or diseased take Kodol Dyspepsia Cure. It digests what you eat and gives the stomach a rest, enabling it to recuperate, take on new life and grow strong again. Kodol cures sour stomach, gas, blousing, heart palpitation and all digestive disorders. L. A. Soper, of Little Rock, Ky., writes us : "We feel that Kodol Dyspepsia Cure deserves all the commendation that can be given it, as it saved the life of our little girl when she was three years old. She is now six and we have kept it for her constantly, but of course she only takes it now when anything disagrees with her. Sold by Green's Pharmacy.

Weighing the Mails.

Preparations are being made by the employes of the railway mail service for weighing the mails, an event which occurs every four years. This is a task which is put upon the railway postal and transfer clerks for the purpose of determining on what basis the contract with the railways for carrying mails should be made by the government.

Every contract made with a railroad for carrying mail is for a period of four years. When the time comes for renewal of contracts the officials in the postoffice department require a knowledge of just how much mail is being handled by the railroads at all of the principal points, and to obtain this information the mail is weighed for a period of 40 days. Every sack of mail that is put on a train or taken off must be weighed, and a record kept of it.

The labor of the transfer and postal clerks is just doubled by the weighing of the mail and to help out the appointment of extra clerks is authorized by the postmaster general.

At present preparations are being made to weigh the mails in the second division of the railway mail service, which includes New York, Pennsylvania, New Jersey, Delaware, the peninsula of Virginia and Maryland and Porto Rico.

January Snowfall.

Twenty-one and two-tenth inches of snow fell during the month of January and including the rainfall of the month the precipitation was 4.15 inches. During the 17 years the Harrisburg weather bureau has been operated, only twice has the precipitation been greater during the month of January. That was in 1891 when 4.73 inches were registered and the following year when 5.14 inches was the record. The average precipitation is 2.86 inches. The greatest snowfall was on January 3, when 6.7 inches was recorded. On the 24th 4.1 inches fell and the next day 4.6 inches. It also snowed upon thirteen days during the month, although the snow was very light upon five of the occasions. One-third of the days of the month were clear and the remainder o the month was cloudy or partly so. The coldest day was the 26th, when two degrees below zero was attained, and the highest point reached on the thermometer was 58 on the 1st.

—Miss Bob White has broken more records for big business and has opened several new theatres where capacity has been tested, but it scored in Atlantic City a record which is likely to exist for some time. It opened its season at the theatre on Young's Pier in that place. They had played "A Chinese Honeymoon and was succeeded by "The Silver Slipper" which held the record for big business. John Young, veteran life saver and fisherman, now proprietor of the amusement interests in the Jersey metropolis, freely acknowledges that he made more money off Miss Bob White, the play gave better satisfaction and he had more people on his pier during its two weeks engagement than at any one time since he has played to the amusement loving public by the sad sea waves. Miss Bob White has been booked here and will be seen in a few weeks.

Cooling Off.

The man who would sit on a cake of ice to cool off would be considered crazy. Yet it is a very common thing for a person heated by exercise to stand in a cool draught, just to cool off. This is the beginning of many a cough which ultimately involves the bronchial tract and the lungs.

For coughs in any stage there is no remedy so valuable as Dr. Pierce's Golden Medical Discovery. It cures deep-seated, obstinate coughs, bronchitis, bleeding of the lungs, and like conditions which if neglected or unskillfully treated terminate in consumption.

There is no alcohol in "Golden Medical Discovery," and it is entirely free from opium, cocaine and other narcotics.

Accept no substitute for "Golden Medical Discovery." There is nothing "just as good."

"I took a severe cold which settled in the bronchial tubes," writes Rev. Frank Hay, of Nortonville, Jefferson Co., Kansas. "After trying medicines labeled 'Sure Cure,' almost without number, I was led to try Dr. Pierce's Golden Medical Discovery. I took two bottles and was cured, and have stayed cured.

"When I think of the great pain I had to endure, and the terrible cough I had, it seems almost a miracle that I was so soon relieved.

"That God may spare you many years and abundantly bless you is the prayer of your grateful friend."

Cost is a secondary consideration when you consider the quality—sufficient it is to say our prices are so reasonable that it would be a waste of shoe leather to look further.

It has a distinctiveness all its own—a something that distinguishes it from the common trash of the ordinary shop.

Again we say:

"Don't be oozy."

BRIEF MENTION

Short Items of Local Interest Gathered By The Way Side

—The venerable Daniel Garman is quite ill with pneumonia at his home on High street His condition is quite serious

—Mrs. Louisa Hoy was taken seriously ill on Sunday while visiting at the residence of her son-in-law, Col. W. Fred Reynolds.

—Mrs. Ida Trafford Bell, a sister of the late Mrs. Wm. J. Singer and well-known in this place, died at her home in New York on MondayFeb 6th. The remains were brought to Tyrone for burial.

—Miss Mildred Gillum, under the management of the Ithaca Conservatory of Music Entertainment Bureau, will give one of her delightful readings in the Lutheran church on Monday evening, February 27. Press and public unite in their praise of the work of Miss Gillum as a dramatic reader.

—The thirty-seventh annual State convention of the Y. M. C. A., of Pennsylvania will be held at Johnstown February 16-19. The speakers will include H. B. McFarland, of Washington; D. Clarence Gibbony, Joshua Levering and others. The subjects of discussion are interesting andvital.

—Rev. R. Crittenden handed us the following notice in regard to the fire at his place Friday morning: The firemen rendered their good services quickly and saved us from a fiery trial in very cold weather. Insurance Agent Foster was on hand at the house to pay damage to furniture before the fire was fairly extinguished.

—Next Sunday morning with High Mass at 10:30 o'clock, a mission will open in St. John's Catholic church to be conducted by the Paulist Fathers of New York city. The first week the meetings will be for Catholics and the second week for non-Catholics. The Paulist Fathers are earnest, eloquent and impressive speakers and their meetings will be very interesting and inspiring.

—The family of the Rev, C. C. Miller, pastor of the second United Brethren church at Braddock, is sadly afflicted with diphtheria. Mrs. Miller and five children were all ill with the disease and on Tuesday one daughter, Ida Dorothy, died from the disease. She was six years and six months old. The Rev. Mr. Miller was formerly pastor of the United Brethren church at Bellefonte and his wife is the daughter of Mr. and Mrs. May; of Altoona.

—John L. Knisely, Harry Otto and Morris H. Otto have made application to the Secretary of the Commonwealth for a charter for a company to be called "The Central Pennsylvania Cigar and Tobacco Manufacturing company." whose privileges it shall be to manufacture and deal in cigars and tobacco of all kinds. This will undoubtedly mean the establishment of a plant that in time may grow to be an important industry of the town.

—"The Parrish Priest" played in Garman's Opera House Monday evening to a large audience. It was a fine play and well rendered by a strong and capable company. John Jack, who played the leading part, is well known by quite a number of people here from the fact that he made political speeches in this section for Col. J. L. Spangler when the latter was a candidate for Congress Mr. Jack starred with Joseph Jefferson for several seasons.

—A farmer drove into Portage Saturday with about a yard of red flannel attached to the end of the spring pole. The people naturally came to the conclusion that there was a case of smallpox aboard and gave it a wide berth. The farmer later laughingly explained that it was merely a ruse to keep boys from climbing on his wagon, as he was a little particular himself as to who rode on his vehicle during the present conditions. Needless to say, he had no trouble from the youngsters.

—The question of charging duty on magazines, etc., by the Australian Government, containing 15 per cent. or more of advertising matter has been under consideration, but it has been decided that for the present, at any rate, no such charge will be made on advertising matter contained in bona fide newspapers, magazines, or other printed literary matter. Duty, however, at the rate of 6 cents per pound, beginning with September 1, 1904, is assessed on all catalogues, price lists, and trade circulars introduced through the post or otherwise, whether sent as single copies or in bulk. Exporters may, if they so desire, weigh the matter in bulk prior to posting, assess the duty at 6 cents per pound, and forward the amount payable to the postmaster-general at Melbourne, for transmission to the customs department.

Miss Nan had a habit of laughing
Whenever she speaks she will smile,
She never will recognize trouble,
She claims it is not worth while.
She pays no attention to trifles,
'Tis happy-go-lucky with Nan.
She worships the hills and the valleys
But will never pay homage to man.

—Mrs. Green, wife of Ira Green, the condemned murderer in the Centre county jail, recently gave birth to a twenty pound baby boy at her nome in Tyrone.

—Mr. and Mrs. Harry Rhoads, of North Spring street, are rejoicing over the birth of a baby boy at their home. This happy event occurred on Tuesday, February 7.

—Foreign Mission Day services will be held in St. John's Reformed church next Sunday morning at 10:30. The Sunday school and congregation will unite in this service. An interesting program has been prepared.

—Mrs Catharine Haupt, widow of the late Isaac Haupt, had the misfortune to fall down a couple steps Tuesday evening, while going from the bath room to her bed room, fracturing the ankle bone. The accident is quite a serious one for Mrs Haupt who already is enfeebled with age and fast failing eyesight.

—The engagement of Miss Leah Mildred Dagget, a niece of Mr. and Mrs. Wells Dagget of the Bush house, to Maynard H. Murch, of Cleveland, Ohio, having been announced, will be followed by an early spring wedding, which is expected to be one of the season's social events.

—Mrs. Joseph W. Rightnour is lying very low at her home on east Howard street, a sufferer with that dread disease, consumption. Up until less than a year ago Mrs. Rightnour was a healthy woman but a heavy cold terminated in tuberculosis with the result that her condition now is regarded as beyond medical skill.

—Mrs. Gotlieb Haag is lying very near the point of death at her home on Penn street, a victim of paralysis. Mrs. Haag was first stricken several weeks ago and it was hoped the affliction would end there, for the time being at least, but since then she has suffered a second and third stroke and her condition now is extremely critical.

—Mr. Frank E. Naginey, who recently purchased the building on Allegheny street in which his furniture store is now located, contemplates making extensive improvements on the same, though not just immediately. His plans are to build the building three stories high its entire length and for the installation of a combined passenger and freight elevator to be located about the middle of the building, or near where his present office is now. He expects to occupy the entire building himself as his present quarters are entirely too much crowded

—Wednesday night of last week while John H. Miller, wholesale and retail flower and seed man, of Tyrone, and C. Y. Wagner, of Bellefonte, were walking from the former's office to his home in Tyrone, Mr. Miller slipped and falling his head struck the icy pavement with the result that a deep gash three inches in length was cut directly across the back of his head a couple inches below the crown. The shock rendered Mr. Miller unconscious for a moment but he was soon able to walk to his home by the assistance of Mr. Wagner. Mr. Miller is confined to his bed where he will be compelled to remain for some days. Mr. Miller was born and raised at Pine Grove Mills. A telephone message to this office states that Mr. Miller's condition is more serious than first reported and very little hopes are entertained for his recovery.

—Dr. Koenig, a German scientist, of Hocchst, has announced that he has succeeded in solving the problem of color photography. Dr. Koenig says he has discovered a perfectly simple process whereby every shade of color in the photographed object is reproduced to perfection in the photograph. The process is so easy that any amateur would be able to carry it out with the same facility that he now takes snapshots. Further, it is only a fraction more expensive than ordinary photography. The process reveals whether a man wears a black or dark blue coat, whether a gold or silver watchchain, whether he has ruddy or pale complexion, and other details to perfection. After the negative is taken, the colored photograph can be copied in forty seconds, and retains all the shades of color in the copy.

—Mrs. J. E. Ward, wife of Dr. Ward, gave a series of parties last week at her home on East Curtin street.

—The 12th of February was appointed by the World's Student Federation as a day of prayer for students.

—Miss Mary Schad, the pretty little daughter of Dr. Edith Schad entertained a party of her young friends Saturday in honor of her tenth birthday.

Agricultural Experiment Station.

Mr. Thorne M. Carpenter has resigned his position as Assistant Chemist of the Station, and assistant in the investigations with the respiration calorimeter, to accept a similar position in connection with the investigations on human nutrition at Weslyan University, Middletown, Connecticut. The vacancy thus caused has been filled by the promotion of Mr N. C. Hamner, and Mr. W. A. Smith, a graduate of the College in 1901, has been appointed assistant chemist.

Mr. J. B. Robb, of the Maryland Agricultural College, who has assisted in the respiration calorimeter investigations during the past three winters, has been temporarily engaged for the same purpose for the present season.

Funeral of Mrs. John B. Mitchell.

The funeral of Mrs. John B. Mitchell, of Pine Grove Mills, will take place on Saturday morning at 10 o'clock from her late residence. Interment in the old Presbyterian cemetery at Pine Grove.

Mrs. Mitchell was a life long resident of Pine Grove Mills and was born there 78 years ago. She was the oldest daughter of William and Margaret Huey, old pioneer families of Ferguson township.

She was a great church worker and a member of the Presbyterian church from childhood. She was a highly respected christian lady and will be sincerely mourned by a large circle of friends and acquaintances.

Conference for State Grange Officers.

On the 16th and 17th of Jan., the Master, Secretary and Lecturer, the members of the Executive and Legislative Committees of the Penn'a. State Grange held a conference at Harrisburg. Every phase of grange work was considered. The prosperous condition of the order in the state inspired all with enthusiasm and a determination to work for still better results It was again agreed to offer banners as prizes to the five granges making the greatest gain during the year.

The Executive Committee concluded contracts with a number of new business houses. The Legislative Committee reported progress on the bills in the lines in which candidates were interrogated before election. In support of these measures there will be concerted action all along the line. Every subordinate and every Pomona grange is urged to have legislative committees to co-operate with the state committe.

Married After Sunday School.

A wedding occurred in the auditorium of the Lutheran church, of Lock Haven, immediately after Sunday school, Sunday afternoon, which created no little stir among the members of the school of a marriageable age.

The contracting parties were Frank F. Mertz, of near McElhattan, and Miss Sadie Fleisher, of Lamar. The young couple were attended by John Shultz, of Lock Haven, and Maggie Mertz, a sister of the groom. The groom is an exemplary young man, an employe of the Pennsylvania railroad and a member of Mrs D. E. Rupley's Bible class, which consists of 20 young men. The groom-to-be gave his teacher, Mrs. Rupley, the tip what was to occur immediately after the Sunday school hour and she had her class present as witnesses of the pleasing event. Rev. D. E. Rupley was the officiating clergyman.

The bride is the daughter of Mr. and Mrs. Harry Fleisher, of Lamar, and is an estimable young lady.—L. H. Democrat.

Woman, 80 Years Old, Baptized in Icy River.

Philadelphia, Feb. 10.—In an invalid's chair, a woman past 80 years old and paralyzed on one side, was wheeled out on the ice and baptized in the Delaware river Monday, opposite East Camden.

Those who saw her taken from the hole made in the ice though she had succumbed from the cold. For a few moments she gave no signs of life.

The woman is Rosie Bradley of 1340 Decatur street, Philadelphia. She was baptized by Elder Skinner of the Church of God.

Attended by five elders, who walked on the ice in bare feet, the old woman sang, in a feeble, trembling voice, as she was rolled in her chair to the place of baptism.

She was lifted off the chair, and lowered through the ice into the river.

Quickly she was replaced on the chair, and hurried to the shore, where she was cared for in a cabin. When she was taken home later she showed no ill effects from her experience.

Met a Horrible Death.

Charles Palmer, the young Altoona man who was killed at Smethport on Monday, met a horrible death. His duty was to keep the heat of the smelting furnaces at the right temperature. The furnaces are so arranged that the gas supply is turned on alternately from one pipe line to another, each pipe being large enough to admit a man's body. While the gas was passing into one Palmer crawled into the other to make some repairs and while there an assistant turned on the gas in the line. The gas immediately ignited and before the mistake was discovered Palmer was burned to a crisp

Charles Palmer was born in Altoona and was aged 29 years. He had resided there all his life until six years ago when he went to Smethport. He was a painter by occupation and followed that trade until he found employment in the glass plant. He is survived by his father, James Palmer, and one brother, W. J. Palmer, of Altoona.

He was buried at this place on Thursday.

Death of a Young Priest.

On the eve of his ordination to the Roman Catholic priesthood, Joseph S. Kulick of Mt. Carmel, died at his home Wednesday Feb 8. The young man, who was only 23 years old, was to have been ordained in Philadelphia Thursday by Archbishop Ryan. He had only recently completed 11 years of arduous study at the seminary of St. Charles Borromeo, Overbrook, when he saw stricken with pneumonia, the malady that caused his death.

Academy Student Injured.

On Saturday evening as a sledding party was leaving Bellefonte some one threw a snow ball containing a stone which missle struck an Academy student on the forehead causing concussion of the brain from which he is now suffering.

The practice of snow balling sledding parties leaving Bellefonte is a very pernicious one and should be stopped by all means. Several serious accidents have resulted from this cause and the authorities should take some action to stop it.

Incidents of Y. M. C. A. Work.

Many stories are told by teachers of night classes of the Y. M. C. A.

A Texas young man became dissatisfied with his work as a builder of box-cars. He took up mechanical drawing with the association and became head draughtsman for the company at three times his former salary. A Boston sailor became a successful sculptor through a clay modeling class. A printer became a lawyer earning more in a day than he once made in a week and a $9 a week grocery clerk developed into a $1600 a year civil engineer.

Newberry's Tiny Baby.

Mr. and Mrs. Albert Derr of 715 Arch street, Newberry—just opposite the big new plant of the Sweets Steel company—have what is believed to be the smallest baby that Williamsport has seen in many years, and in spite of its diminutive size it has lived for five weeks, is healthy and sound and gives promise of growing, with all the chances of long life that other babies have. When the little midget arrived on January 5, says the Williamsport Sun, Dr. Chappell, who officiated at the birth, said that it probably would not live more than a few days. But now Albert Derr, Jr., has proven that he has more vitality than was thought for and is clearly entitled to go down on the records of Williamsport's population.

When the baby was born it weighed between two and one-half and three pounds. At the age of five weeks Thursday little Albert has gained possibly half a pound. He was at birth about nine inches tall. A tea cup would fit over his head and clear down to his shoulders. His fingers were about the size of a straw, his wrists like a lead pencil, and his hands not much bigger than a silver quarter dollar. Now he is about thirteen inches tall, and it takes a coffee cup to cover his head where the tea cup did it before. He is a model baby—sleeps all night, does not cry, and has not been ill, as far as could be told, an hour since he was born. But he is such a mite that the greatest care is required in handling him, and the room in which he lives must be kept at a high temperature.

Mr. and Mrs. Derr have five other children, all of them having been of normal size at birth. Albert's fame has already spread about Newberry. In the past several weeks fully 150 people have called to see the child, and the number is steadily increasing.
